

COMMISSION IMPLEMENTING REGULATION (EU) No 375/2013

of 23 April 2013

approving the active substance spiromesifen, in accordance with Regulation (EC) No 1107/2009 of the European Parliament and of the Council concerning the placing of plant protection products on the market, and amending the Annex to Commission Implementing Regulation (EU) No 540/2011

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 1107/2009 of the European Parliament and of the Council of 21 October 2009 concerning the placing of plant protection products on the market and repealing Council Directives 79/117/EEC and 91/414/EEC⁽¹⁾, and in particular Articles 13(2) and 78(2) thereof,

Whereas:

- (1) In accordance with Article 80(1)(a) of Regulation (EC) No 1107/2009, Council Directive 91/414/EEC⁽²⁾ is to apply, with respect to the procedure and the conditions for approval, to active substances for which a decision has been adopted in accordance with Article 6(3) of that Directive before 14 June 2011. For spiromesifen the conditions of Article 80(1)(a) of Regulation (EC) No 1107/2009 are fulfilled by Commission Decision 2003/105/EC⁽³⁾.
- (2) In accordance with Article 6(2) of Directive 91/414/EEC the United Kingdom received on 18 April 2002 an application from Bayer CropScience AG for the inclusion of the active substance spiromesifen in Annex I to Directive 91/414/EEC. Decision 2003/105/EC confirmed that the dossier was 'complete' in the sense that it could be considered as satisfying, in principle, the data and information requirements of Annexes II and III to Directive 91/414/EEC.
- (3) For that active substance, the effects on human and animal health and the environment have been assessed, in accordance with the provisions of Article 6(2) and (4) of Directive 91/414/EEC, for the uses proposed by the applicant. The designated rapporteur Member State submitted a draft assessment report on 9 March 2004. This draft assessment report was reviewed by the Member States and the European Food Safety Authority (hereinafter 'the Authority') and a final discussion took place on 26 April 2007. The Authority presented to the Commission its conclusion⁽⁴⁾ on the review of the pesticide risk assessment of the active substance spiromesifen on 13 June 2007.

- (4) In its conclusion, the Authority did not take into account all information submitted by the applicant before 26 April 2007. The Commission requested the Authority to revise its conclusion and to take into account all information submitted.
- (5) The designated rapporteur Member State assessed all additional information and submitted an Addendum to the draft assessment report on 28 September 2009.
- (6) The Addendum to the draft assessment report was reviewed by the Member States and the Authority. The Authority presented to the Commission its second conclusion on the review of the pesticide risk assessment of the active substance spiromesifen⁽⁵⁾ on 19 September 2012. The updated draft assessment report and the conclusion of the Authority were reviewed by the Member States and the Commission within the Standing Committee on the Food Chain and Animal Health and the draft assessment report was finalised on 15 March 2013 in the format of the Commission review report for spiromesifen.
- (7) It has appeared from the various examinations made that plant protection products containing spiromesifen may be expected to satisfy, in general, the requirements laid down in Article 5(1)(a) and (b) and Article 5(3) of Directive 91/414/EEC, in particular with regard to the uses which were examined and detailed in the Commission review report. It is therefore appropriate to approve spiromesifen.
- (8) In accordance with Article 13(2) of Regulation (EC) No 1107/2009 in conjunction with Article 6 thereof and in the light of current scientific and technical knowledge, it is, however, necessary to include certain conditions and restrictions. It is, in particular, appropriate to require further confirmatory information.
- (9) A reasonable period should be allowed to elapse before approval in order to permit Member States and the interested parties to prepare themselves to meet the new requirements resulting from the approval.
- (10) Without prejudice to the obligations provided for in Regulation (EC) No 1107/2009 as a consequence of approval, taking into account the specific situation created by the transition from Directive 91/414/EEC to

⁽¹⁾ OJ L 309, 24.11.2009, p. 1.⁽²⁾ OJ L 230, 19.8.1991, p. 1.⁽³⁾ OJ L 43, 18.2.2003, p. 45.⁽⁴⁾ EFSA Scientific Report (2007) 105, 1-69. Available online: www.efsa.europa.eu⁽⁵⁾ EFSA Journal 2012; 10(10):2873. Available online: www.efsa.europa.eu

Regulation (EC) No 1107/2009, the following should, however, apply. Member States should be allowed a period of six months after approval to review authorisations of plant protection products containing spiromesifen. Member States should, as appropriate, vary, replace or withdraw authorisations. By way of derogation from that deadline, a longer period should be provided for the submission and assessment of the update of the complete Annex III dossier, as set out in Directive 91/414/EEC, of each plant protection product for each intended use in accordance with the uniform principles.

- (11) The experience gained from inclusions in Annex I to Directive 91/414/EEC of active substances assessed in the framework of Commission Regulation (EEC) No 3600/92 of 11 December 1992 laying down the detailed rules for the implementation of the first stage of the programme of work referred to in Article 8(2) of Council Directive 91/414/EEC concerning the placing of plant protection products on the market ⁽¹⁾ has shown that difficulties can arise in interpreting the duties of holders of existing authorisations in relation to access to data. In order to avoid further difficulties it therefore appears necessary to clarify the duties of the Member States, especially the duty to verify that the holder of an authorisation demonstrates access to a dossier satisfying the requirements of Annex II to that Directive. However, this clarification does not impose any new obligations on Member States or holders of authorisations compared to the Directives which have been adopted until now amending Annex I to that Directive or the Regulations approving active substances.
- (12) In accordance with Article 13(4) of Regulation (EC) No 1107/2009, the Annex to Commission Implementing Regulation (EU) No 540/2011 of 25 May 2011 implementing Regulation (EC) No 1107/2009 of the European Parliament and of the Council as regards the list of approved active substances ⁽²⁾ should be amended accordingly.
- (13) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS REGULATION:

Article 1

Approval of active substance

The active substance spiromesifen, as specified in Annex I, is approved subject to the conditions laid down in that Annex.

⁽¹⁾ OJ L 366, 15.12.1992, p. 10.

⁽²⁾ OJ L 153, 11.6.2011, p. 1.

Article 2

Re-evaluation of plant protection products

1. Member States shall in accordance with Regulation (EC) No 1107/2009, where necessary, amend or withdraw existing authorisations for plant protection products containing spiromesifen as an active substance by 31 March 2014.

By that date they shall in particular verify that the conditions in Annex I to this Regulation are met, with the exception of those identified in the column on specific provisions of that Annex, and that the holder of the authorisation has, or has access to, a dossier satisfying the requirements of Annex II to Directive 91/414/EEC in accordance with the conditions of Article 13(1) to (4) of that Directive and Article 62 of Regulation (EC) No 1107/2009.

2. By way of derogation from paragraph 1, for each authorised plant protection product containing spiromesifen as either the only active substance or as one of several active substances, all of which were listed in the Annex to Implementing Regulation (EU) No 540/2011, by 30 September 2013 at the latest Member States shall re-evaluate the product in accordance with the uniform principles, as referred to in Article 29(6) of Regulation (EC) No 1107/2009, on the basis of a dossier satisfying the requirements of Annex III to Directive 91/414/EEC and taking into account the column on specific provisions of Annex I to this Regulation. On the basis of that evaluation, they shall determine whether the product satisfies the conditions set out in Article 29(1) of Regulation (EC) No 1107/2009.

Following that determination Member States shall:

- (a) in the case of a product containing spiromesifen as the only active substance, where necessary, amend or withdraw the authorisation by 31 March 2015 at the latest; or
- (b) in the case of a product containing spiromesifen as one of several active substances, where necessary, amend or withdraw the authorisation by 31 March 2015 or by the date fixed for such an amendment or withdrawal in the respective act or acts which added the relevant substance or substances to Annex I to Directive 91/414/EEC or approved that substance or those substances, whichever is the latest.

Article 3

Amendments to Implementing Regulation (EU) No 540/2011

The Annex to Implementing Regulation (EU) No 540/2011 is amended in accordance with Annex II to this Regulation.

*Article 4***Entry into force and date of application**

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 1 October 2013.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 23 April 2013.

For the Commission
The President
José Manuel BARROSO

ANNEX I

Common Name, Identification Numbers	IUPAC Name	Purity ⁽¹⁾	Date of approval	Expiration of approval	Specific provisions
Spiromesifen CAS No 283594-90-1 CIPAC No 747	3-mesityl-2-oxo-1-oxaspiro[4.4]non-3-en-4-yl 3,3-dimethylbutyrate	≥ 965 g/kg (racemic) The impurity N,N-dimethylacetamide is of toxicological relevance and must not exceed 4 g/kg in the technical material.	1 October 2013	30 September 2023	<p>For the implementation of the uniform principles as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the review report on spiromesifen, and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 15 March 2013, shall be taken into account.</p> <p>In this overall assessment Member States shall pay particular attention to:</p> <ul style="list-style-type: none"> — the long-term risk to aquatic invertebrates, — the risk to pollinating hymenoptera and non-target arthropods if exposure is not negligible, — the protection of workers and operators. <p>Conditions of use shall include risk mitigation measures, where appropriate.</p> <p>The applicant shall submit confirmatory information as regards the recalculation of the predicted concentration in groundwater (PECGW) with a FOCUS GW scenario adapted to the supported uses using a Q10 value of 2,58.</p> <p>The applicant shall submit to the Commission, the Member States and the Authority that information by 30 September 2015.</p>

⁽¹⁾ Further details on identity and specification of active substance are provided in the review report.

ANNEX II

In Part B of the Annex to Implementing Regulation (EU) No 540/2011, the following entry is added:

Number	Common Name, Identification Numbers	IUPAC Name	Purity (*)	Date of approval	Expiration of approval	Specific provisions
'41	Spiromesifen CAS No 283594-90-1 CIPAC No 747	3-mesityl-2-oxo-1-oxaspiro[4.4]non-3-en-4-yl 3,3-dimethylbutyrate	≥ 965 g/kg (racemic) The impurity N,N-dimethylacetamide is of toxicological relevance and must not exceed 4 g/kg in the technical material.	1 October 2013	30 September 2023	<p>For the implementation of the uniform principles as referred to in Article 29(6) of Regulation (EC) No 1107/2009, the conclusions of the review report on spiromesifen, and in particular Appendices I and II thereof, as finalised in the Standing Committee on the Food Chain and Animal Health on 15 March 2013, shall be taken into account.</p> <p>In this overall assessment Member States shall pay particular attention to:</p> <ul style="list-style-type: none"> — the long-term risk to aquatic invertebrates, — the risk to pollinating hymenoptera and non-target arthropods if exposure is not negligible, — the protection of workers and operators. <p>Conditions of use shall include risk mitigation measures, where appropriate.</p> <p>The applicant shall submit confirmatory information as regards the recalculation of the predicted concentration in groundwater (PECGW) with a FOCUS GW scenario adapted to the supported uses using a Q10 value of 2,58.</p> <p>The applicant shall submit to the Commission, the Member States and the Authority that information by 30 September 2015.'</p>

(*) Further details on identity and specification of active substance are provided in the review report.
