About J-CHECK

Class II specified chemical substance

Update history

Search

Class II Specified Chemical Substances are substances that are specified by Cabinet Order (Order for enforcement of the Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc.), and are thought to pose a risk of causing damage to humans or damage to flora and fauna in the human living environment due to the substance has a risk of long-term toxicity for humans or flora and fauna in the human living environment, and a considerable amount of the substance remaining in the environment over a substantially extensive area or it is reasonably likely that such a situation will arise in the near future.

Class I Specified Chemical Substances

Cabinet Order No. *	Class II Specified Chemical Substance Name
1	Trichloroethylene
2	Tetrachloroethylene
3	Carbon tetrachloride
4	Triphenyltin N,N-dimethyldithiocarbamate
5	Triphenyltin fluoride
6	Triphenyltin acetate
7	Triphenyltin chloride
8	Triphenyltin hydroxide
9	Triphenyltin salt of fatty acid (only those containing 9,10 or 11 carbon atoms in the fatty acid)
10	Triphenyltin chloroacetate
11	Tributyltin methacrylate
12	Bis(tributyltin) fumarate
13	Tributyltin fluoride
14	Bis(tributyltin) 2,3-dibromosuccinate
15	Tributyltin acetate
16	Tributyltin laurate
17	Bis(tributyltin) phthalate
18	Copolymer of alkyl acrylate, methyl methacrylate and tributyltin methacrylate (only those containing 8 carbon atoms in alk of alkyl acrylate)
19	Tributyltin sulfamate
20	Bis(tributyltin) maleate
21	Tributyltin chloride
22	Mixture of tributyltin cyclopentanecarboxylate and its analogous compounds (Synonym: Tributyltin naphthenate)
23	Mixture of tributyltin 1,2,3,4,4a,4b,5,6,10,10a-decahydro-7-isopropyl-1,4a-dimethyl-1-phenanthrenecarboxylate and its ar compounds (Synonym: Tributyltin salt of rosin)
24	Poly(oxyethylene) alkylphenyl ether (limited to those the alkyl group is C=9)
Cabinet Order No. *	Class II Specified Chemical Substance Name
