

Variation to Inventory listing after evaluation - CAS numbers: 70693-64-0, 12222-80-9, 15141-18-1, 68516-81-4, 69766-79-6 and 72987-42-9

The specific requirement to provide information to AICIS as a term of the listing will be varied for:

- benzenamine, N,N-diethyl-3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]- (CAS No. 70693-64-0)
 - C.I. Disperse Blue 82 (CAS No. 12222-80-9)
 - ethanol, 2-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]-, 1-acetate (CAS No. 15141-18-1)
 - ethanol, 2-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]- (CAS No. 68516-81-4)
 - 1,2-propanediol, 3-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]- (CAS No. 69766-79-6)
 - ethanol, 2,2'-[[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]imino]bis- (CAS No. 72987-42-9)
- on the Australian Inventory of Industrial Chemicals (Inventory).

Reason for varying the Inventory listings

The Australian Industrial Chemical Introduction Scheme (AICIS) completed an evaluation under Part 4 of the *Industrial Chemicals Act 2019* (IC Act). AICIS published its final evaluation statement on 16 December 2025, following public consultation.

For the reasons set out in the conclusions section of the evaluation statement (page 10 paragraphs 2 and 3), the Executive Director of AICIS concluded that a variation to the Inventory terms of listing for these chemicals is necessary to manage the risks from the introduction of these chemicals. This includes amending the existing specific information requirements (SIR) for benzenamine, N,N-diethyl-3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]- (CAS No. 70693-64-0) and varying the terms of listing for the remaining chemicals to include a new SIR.

Therefore, the Executive Director is varying the terms of listing for these chemicals on the Inventory under section 86 of the IC Act.

Details of Inventory variations

CAS number	70693-64-0
Chemical name	Benzenamine, N,N-diethyl-3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]-
Molecular formula	C ₁₄ H ₁₇ N ₅ O ₂ S

Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces this chemical must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers. 3. The introduction volume of the chemical exceeds 1 tonne per annum. 4. Manufacturing of the chemical has commenced in Australia. 5. Information has become available to the person as to an adverse effect of the chemical on the environment.
Proposed date of variation	18 February 2026

CAS number	12222-80-9
Chemical name	C.I. Disperse Blue 82
Molecular formula	Unspecified
Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces these chemicals must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers.
Proposed date of variation	18 February 2026

CAS number	15141-18-1
Chemical name	Ethanol, 2-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]-, 1-acetate
Molecular formula	C ₁₆ H ₁₉ N ₅ O ₄ S
Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces these chemicals must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers.
Proposed date of variation	18 February 2026

CAS number	68516-81-4
-------------------	------------

Chemical name	Ethanol, 2-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]-
Molecular formula	C ₁₄ H ₁₇ N ₅ O ₃ S
Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces these chemicals must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers.
Proposed date of variation	18 February 2026

CAS number	69766-79-6
Chemical name	1,2-Propanediol, 3-[ethyl[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]amino]-
Molecular formula	C ₁₅ H ₁₉ N ₅ O ₄ S
Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces these chemicals must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers.
Proposed date of variation	18 February 2026

CAS number	72987-42-9
Chemical name	Ethanol, 2,2'-[[3-methyl-4-[2-(5-nitro-2-thiazolyl)diazenyl]phenyl]imino]bis-
Molecular formula	C ₁₄ H ₁₇ N ₅ O ₄ S
Specific information requirements to provide information to the Executive Director under section 101 of the IC Act.	<p>A person who introduces these chemicals must tell the Executive Director the volume of introduction and end use of the chemical within 20 working days if:</p> <ol style="list-style-type: none"> 1. The end use of the chemical has changed or is likely to change from use in textile (fabric) dyes and printing inks. 2. The chemical has begun to be used by anyone other than professional workers.
Proposed date of variation	18 February 2026
