

Colombia National Chemical Inventory Law

Decree No 1630/2021 on chemicals management will establish a National Inventory of Industrial Chemical Substances (Inventario Nacional de Sustancias Químicas de Uso Industrial -INSQUI)

Registration platform for companies to report on the use of chemicals in their industrial activities is available:

<https://insqui.sical.gov.co/login.php>

It is possible to view consolidated inventory information on an interactive dashboard that acts as a national inventory to find out which hazardous industrial substances have been registered in Colombia. Anything not on the list is considered new according to Decree No 1630/2021.
