

**ENVIRONMENTAL PROTECTION AGENCY**

[EPA-HQ-OPPT-2016-0701; FRL-9962-98]

**Certain New Chemicals; Receipt and Status Information for April 2017****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

**SUMMARY:** EPA is required under the Toxic Substances Control Act (TSCA) to publish in the **Federal Register** a notice of receipt of a premanufacture notice (PMN); an application for a test marketing exemption (TME), both pending and/or expired; and a periodic status report on any new chemicals under EPA review and the receipt of notices of commencement (NOC) to manufacture those chemicals. This document covers the period from April 3, 2017 to April 28, 2017.

**DATES:** Comments identified by the specific case number provided in this document, must be received on or before August 7, 2017.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2016-0701, and the specific PMN number or TME number for the chemical related to your comment, by one of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- **Mail:** Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- **Hand Delivery:** To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

**FOR FURTHER INFORMATION CONTACT:**

For technical information contact: Jim Rahai, Information Management Division (7407M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania

Ave. NW., Washington, DC 20460-0001; telephone number: (202) 564-8593; email address: [rahai.jim@epa.gov](mailto:rahai.jim@epa.gov).

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

**SUPPLEMENTARY INFORMATION:****I. General Information***A. Does this action apply to me?*

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the actions addressed in this document.

*B. What should I consider as I prepare my comments for EPA?*

1. **Submitting CBI.** Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

**II. What action is the Agency taking?**

This document provides receipt and status reports, which cover the period from April 3, 2017 to April 28, 2017, and consists of the PMNs and TMEs both pending and/or expired, and the NOCs to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

**III. What is the Agency's authority for taking this action?**

Under TSCA, 15 U.S.C. 2601 *et seq.*, EPA classifies a chemical substance as

either an "existing" chemical or a "new" chemical. Any chemical substance that is not on EPA's TSCA Inventory is classified as a "new chemical," while those that are on the TSCA Inventory are classified as an "existing chemical." For more information about the TSCA Inventory, please go to: <http://www.epa.gov/opptintr/newchemicals/pubs/inventory.htm>.

Anyone who plans to manufacture or import a new chemical substance for a non-exempt commercial purpose is required by TSCA section 5 to provide EPA with a PMN, before initiating the activity. Section 5(h)(1) of TSCA authorizes EPA to allow persons, upon application, to manufacture (includes import) or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a), for "test marketing" purposes, which is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to <http://www.epa.gov/oppt/newchemicals>.

Under TSCA sections 5(d)(2) and 5(d)(3), EPA is required to publish in the **Federal Register** a notice of receipt of a PMN or an application for a TME and to publish in the **Federal Register** periodic reports on the status of new chemicals under review and the receipt of NOCs to manufacture those chemicals.

**IV. Receipt and Status Reports**

As used in each of the tables in this unit, (S) indicates that the information in the table is the specific information provided by the submitter, and (G) indicates that the information in the table is generic information because the specific information provided by the submitter was claimed as CBI.

For the 47 PMNs received by EPA during this period, Table 1 provides the following information (to the extent that such information is not claimed as CBI): The EPA case number assigned to the PMN; the date the PMN was received by EPA; the projected end date for EPA's review of the PMN; the submitting manufacturer/importer; the potential uses identified by the manufacturer/importer in the PMN; and the chemical identity.

**FEDERAL COMMUNICATIONS COMMISSION**

[PS Docket No. 16-269]

**Procedures for Commission Review of State Opt-Out Request From the FirstNet Radio Access Network**

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: By this document, the Public Safety and Homeland Security Bureau (Bureau) issues a Public Notice establishing an expedited comment period to allow public comment on two ex parte filings and any related filings submitted by the First Responder Network Authority (FirstNet).

DATES: Comments are due July 17, 2017.

**FOR FURTHER INFORMATION CONTACT:**

Roberto Mussenden, Policy and Licensing Division, Public Safety and Homeland Security Bureau, (202) 418-1428.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Public Notice in PS Docket No. 16-269, DA 17-625, released on June 28, 2017. In a June 5, 2017 ex parte filing, FirstNet filed a spreadsheet listing "FCC Evaluation Requirements" associated with specific elements of the anticipated state plan categories, stating that the spreadsheet represents an "interoperability compliance matrix that documents the technical standards that will be necessary to ensure a state or territory's RAN is interoperable with the [National Public Safety Broadband Network] NPSBN." On June 16, 2017, FirstNet filed an additional ex parte letter reporting on a June 14 meeting with Bureau staff, in which it proffers a revised interoperability compliance matrix. In the revised matrix, FirstNet proposes that the Commission's review under the second statutory prong be

limited to whether alternative state plans comply with recommended requirements [4] and [5] from the Interoperability Board Report. (Recommended requirement [4] states that hardware and software systems comprising the NPSBN SHALL support APNs defined for PSAN usage. Recommended requirement [5] states that hardware and software systems comprising the NPSBN SHALL support nationwide APNs for interoperability.) The Public Notice seeks comment on whether the Commission should incorporate these policies when evaluating state compliance with the NPSBN.
