## ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPPT-2017-0407; FRL-9967-08]

### Certain New Chemicals; Receipt and Status Information for July 2017

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** EPA is required under the Toxic Substances Control Act (TSCA) to publish in the **Federal Register** a notice of receipt of a premanufacture notice (PMN); an application for a test marketing exemption (TME), both

pending and/or expired; and a periodic status report on any new chemicals under EPA review and the receipt of notices of commencement (NOC) to manufacture those chemicals. This document covers the period from July 3, 2017 to July 31, 2017.

**DATES:** Comments identified by the specific case number provided in this document, must be received on or before October 27, 2017.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2017-0407, and the specific PMN number or TME number for the chemical related to your

comment, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

For further information contact: Jim Rahai, IMD 7407M, Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (202) 564-8593; email address: [rahai.jim@epa.gov](mailto:rahai.jim@epa.gov).

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

**A. Does this action apply to me?**

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the actions addressed in this document.

**B. What should I consider as I prepare my comments for EPA?**

1. *Submitting CBI.* Do not submit this information to EPA through [www.regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR parts 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

**II. What action is the Agency taking?**

This document provides receipt and status reports, which cover the period from July 3, 2017 to July 31, 2017, and consists of the PMNs and TMEs both pending and/or expired, and the NOCs to manufacture a new chemical that the Agency has received under TSCA section 5 during this time period.

**III. What is the Agency's authority for taking this action?**

Under TSCA, 15 U.S.C. 2601 *et seq.*, EPA classifies a chemical substance as either an "existing" chemical or a "new" chemical. Any chemical substance that is not on EPA's TSCA Inventory is classified as a "new chemical," while those that are on the TSCA Inventory are classified as an "existing chemical." For more information about the TSCA Inventory, please go to: <http://www.epa.gov/>

[opptintr/newchems/pubs/inventory.htm](http://www.epa.gov/opptintr/newchems/pubs/inventory.htm).

Anyone who plans to manufacture or import a new chemical substance for a non-exempt commercial purpose is required by TSCA section 5 to provide EPA with a PMN, before initiating the activity. Section 5(h)(1) of TSCA authorizes EPA to allow persons, upon application, to manufacture (includes import) or process a new chemical substance, or a chemical substance subject to a significant new use rule (SNUR) issued under TSCA section 5(a), for "test marketing" purposes, which is referred to as a test marketing exemption, or TME. For more information about the requirements applicable to a new chemical go to: <http://www.epa.gov/oppt/newchems>.

Under TSCA sections 5(d)(2) and 5(d)(3), EPA is required to publish in the **Federal Register** a notice of receipt of a PMN or an application for a TME and to publish in the **Federal Register** periodic reports on the status of new chemicals under review and the receipt of NOCs to manufacture those chemicals.

**IV. Receipt and Status Reports**

As used in each of the tables in this unit, (S) indicates that the information in the table is the specific information provided by the submitter, and (G) indicates that the information in the table is generic information because the specific information provided by the submitter was claimed as CBI.

For the 49 PMNs received by EPA during this period, Table 1 provides the following information (to the extent that such information is not claimed as CBI): The EPA case number assigned to the PMN; The date the PMN was received by EPA; the projected end date for EPA's review of the PMN; the submitting manufacturer/importer; the potential uses identified by the manufacturer/importer in the PMN; and the chemical identity.

## FEDERAL COMMUNICATIONS COMMISSION

[DA 17-911]

### Opening of Second Filing Window for Eligible Full Power and Class A Television Stations

**AGENCY:** Federal Communications  
Commission.

**ACTION:** Notice.

**SUMMARY:** This document announces that the second filing window for eligible full power and Class A television stations to file applications for alternate channels or expanded facilities will be open from October 3, 2017 through November 2, 2017.

**DATES:** September 27, 2017.

**FOR FURTHER INFORMATION CONTACT:**

Joyce Bernstein, [Joyce.Bernstein@fcc.gov](mailto:Joyce.Bernstein@fcc.gov), or Kevin Harding, [Kevin.Harding@fcc.gov](mailto:Kevin.Harding@fcc.gov), Video Division, Media Bureau, Federal Communications Commission.

**SUPPLEMENTARY INFORMATION:** Auction 1000, which was conducted pursuant to Title VI of the Middle Class Tax Relief and Job Creation Act of 2012, was completed on April 13, 2017, and the Commission initiated a transition period during which broadcast television stations that received new channel assignments in the April 13, 2017 Closing and Channel Reassignment Public Notice will be reauthorized and relicensed. The deadline for applications for construction permits consistent with the requirements of that Public Notice were due July 12, 2017. The first priority filing window, which limited eligibility to a discrete number of stations, closed on September 15, 2017.

The second filing window opens on Tuesday, October 3, 2017 and closes at 11:59 p.m. EDT on Thursday, November 2, 2017, and any broadcast television station that received a new channel reassignment in the incentive auction repacking process may file during the second window. Eligible stations may file applications for expanded facilities that qualify as a minor change under the Commission's rules, or for alternate channels which will be treated as major change applications under the
