

Toxic Substances Control Act (TSCA): Free-Radical Initiator Polymers (EPA Flag FRI)

Special flags are used throughout the TSCA Inventory to identify substances on the Inventory that are subject of the EPA rule or order promulgated under TSCA, as well as to indicate types of full or partial exemptions from TSCA reporting requirements.

The flag for **FRI** indicates a polymeric substance containing no free-radical initiator in its Inventory name but is considered to cover the designated polymer made with any free-radical initiator regardless of the amount used.

More information about the EPA Regulatory Flags and the TSCA Inventory can be found here: [How to Access the TSCA Inventory | US EPA](#).
