

Toxic Substance Control Act (TSCA)- Polymer greater than 10000 dalton (MW) Exempt under the 1984 Polymer Exemption Rule

Special flags are used throughout the TSCA Inventory to identify substances on the Inventory that are subject of the EPA rule or order promulgated under TSCA, as well as to indicate types of full or partial exemptions from TSCA reporting requirements.

The flag for **Y1** indicates a polymer that has a number-average molecular weight greater than 1,000 and that was exempt under the 1984 polymer exemption rule.

More information about the EPA Regulatory Flags and the TSCA Inventory can be found here: [How to Access the TSCA Inventory | US EPA](#).
